

Gateway Health & Safety Policy

Revised 8/21/23

Children with the following symptoms listed below are not permitted to attend class. These symptoms prevent your child from participating comfortably in child care activities and/or may be contagious to other children.

Temp of 100.4 degrees or higher (99.4 under arm)

Eye discharge/ swollen / Possible pink eye

Vomit episode

2 Diarrhea episodes

Unexplained Rash

Abnormal breathing / heavy wheezing / signs of lethargy

Green discharge from nose or eyes

Uncontrollable cough

Greater need for care than caregiver can provide

Behavioral changes / excessive tiredness

Children that have been sent home may return to program after remaining fever free without medication & completely symptom free for 24 hours. If child returns to class showing any type of symptom, a doctor's release must be presented.

If child returns and presents same/similar symptoms they will not be allowed to be dropped off by lead teacher.
